Home habits log: plug-in readings

An adult plugs in the meter; children read and record. Daily kWh = watts × hours per day ÷ 1,000 (U.S. Department of Energy formula).

Date	Device	Watts	Hours/day	Daily kWh

Home habits log: shower minutes

Gallons = minutes × the gpm stamped on the showerhead. EPA WaterSense labeled showerheads use no more than 2.0 gpm.

Date	Who	Minutes	Showerhead gpm	Gallons

Home habits log: rainfall

Read the gauge at eye level at the same time each day, write the number, then empty it.

Date	Time	Rain (in)	Notes
